

Player Ratings for a Specific Round Score

Select a Course column for your division. Scan down to find your Player Rating. Then, move to a Round Score column to see what players with your rating should average on that course. Hopefully, you can shoot better than that score. Example, an Open player with a 979 rating should average about 56 at North Valley.

Round Score	All but Legends		Open & Master Men		GM & OW	MW & SG		Round Score
